

EDBPRO6-E3
PRO AUDIO MIDRANGE
LOUD • PRO • VALUE

Our all new DB Series features our first level of pro audio speakers, some of the biggest and best selling in the world.

DB series pro audio speakers are our entry level into producing high volume mid-range output across a variety of speaker sizes. To produce the high volume levels expected from Pro audio, EDGE DB series feature highly engineered components which have been specially designed.

Designed for extremely high efficiency and wide frequency response,including precision engineered voice coils and motors as well as a revised composite cone resulting in a loud market beating Pro speaker.

Model	EDBPRO6-E3
Configuration	1-way
Speaker Size	6.5" (165mm)
RMS Power	150W
Peak Power	300W
Sensitivity	98dB
Frequency Response	125Hz - 10.5kHz
Impedance	4Ω
Mounting Depth	3" (75mm)
Mounting Diameter	5.7" (145mm)

BRAND NEW TECHNOLOGY - The new EDBPRO6 features an all new "Golf ball" design cone which increases rigidity and strength of the paper cone with the added benefit of a small increase in cone area all resulting in extra output.

HIGH EFFICIENCY - With a sensitivity of 98dB this pro audio midrange is capable of producing extremely loud concert level sound due to its high efficiency.

PRO AUDIO SOUND - The EDBPRO6 features a wide frequency response, paired with a high sensitivity as well as a respectable power handling.

BEST VALUE - The EDBPRO6 brings unmatched performance and value. Providing an affordable entry to Pro audio speakers.

PRO AUDIO DRIVER

Pro audio drivers are designed specifically for high output in SPL and competition audio systems.

PAPER COMPOSITE

All new lightweight paper composite cone for increased performance due to extra rigidity and cone control.

SPADE TERMINAL

Built in spade terminal for easy and neat and secure connections to the speaker terminals.

FOAM SURROUND

Dual roll foam surround to help improve the lower end of the speakers midrange response.

TORSION BASKET

Angular torsion basket for increased rigidity and support for the large moving motor parts of the speaker.

Y35 FERRITE MAGNET

Powerful Y35 ferrite magnet provides extreme motor force for high SPL applications.
